AAKASH
GRAPHIC DESIGNER

About Me

I'm a Graphic Designer and Digital Creator based in India, with over 2+ years of expertise in graphic design and design softwares. With love for both art and technology, I've built my passion around graphic design, specializing in brand & logo design, print media design, photo editing and video editing.

My design style is all about simplicity and elegance. I believe that less is more and that the best designs are those that communicate clearly and effectively. I focus on designing clean, modern visuals that are both aesthetically pleasing and straightforward.
